

# BALL THROWING MACHINES

for cricket, hockey and baseball

## BOLA Cricket Bowling Machines from Mapperley Sports

Continual development and refinements over a quarter of a century have made the BOLA Cricket Bowling Machine the indispensable coaching tool. We offer the full Bola range at great prices and offer further reductions when purchased as a package. All prices include VAT and carriage is free on all orders which include a machine.

### **BOLA Professional Machine**

Fully enclosed Cricket Bowling Machine. Concave profile moulded urethane ball delivery wheels. Adjustable speed in 1 mph increments from 15 to 95 mph. Spin, swing & pace bowling with 19 spin and swing settings. Random ball variation facility when used with an autofeed or optional chip insert. Operation from 12 volt battery or mains using the BOLA Power Pack.

**Bola Professional with Power Pack £2093.00**

**Bola Professional 12V (battery extra) £1895.00**

### **BOLA Club Machine**

Fully enclosed Cricket Bowling Machine. Concave profile moulded urethane ball delivery wheels. Adjustable speed in 1 mph increments from 15 to 80 mph. Spin, swing & pace bowling with 19 spin and swing settings. Operation from 12 volt battery or mains using the BOLA Power Pack.

**Bola Club with Power Pack £1925.00**

**Bola Club 12V (battery extra) £1710.00**

### **BOLA 28 Ball Autofeed £393.00**

*Carriage if ordered without a machine £11.00*

The BOLA Automatic Ball Feeder will fit both the 'Club' and 'Professional' models. It can be attached in less than 2 minutes and feeds a ball into the machine every 7 or 11 seconds (as selected). Optional remote control on/off switch allows interruption of the sequence when required. An ultra bright LED indicator and a beeper warn of the release of a ball. The ball feeder offers a unique solo batting practice facility or the option to coach from any position. An Electronic Random Delivery Mode is also available for the 'Professional' model.

### **BOLA Bowling Machine Package Deals**

**12 V Package.** Includes a machine, battery and 2 dozen balls.

**BOLA CLUB 12V Package £1883.00**

# BOLA Cricket Bowling Machine Accessories

## BOLA Machine Stand

**£710.00**

Price includes carriage and VAT

Accepts any BOLA machine with no modification required. It enables the machine to be easily wheeled around without dismantling and so maximises the time in use. It provides the Machine operator with a safe and stable position.

## BOLA Machine Compact Stand

**£475.00**

Price includes carriage and VAT

A compact BOLA machine stand on 4 casters (needs a flat surface to stand on). Designed for smaller storage spaces with a reduced footprint (900mm x 1000mm). Movable height machine bracket for adjustment of ball delivery height – 4 bolts and wing-nuts. Operator protection for lower body. Easy and quick to move and set up. Will accommodate all BOLA Bowling Machines and Auto Feeders.

## BOLA Battery

**£95.00** Free delivery with a machine. £24.00 carriage if ordered without a machine.

A leisure battery for use with all BOLA machines. Fitted with a carrying handle for portability. Designed to be run flat and recharged as necessary (unlike automotive batteries). Gives between 2 and 6 hours between recharges. Charge from 12 volt car charger or BOLA Power Pack.

## Battery Charger

**£45.00** Free delivery with a machine. £11.00 carriage if ordered without a machine.

The BOLA powerpack will also charge a 12v leisure battery.

## BOLA Balls 5oz Red or Yellow, 3oz Orange £49.00 per dozen

Free delivery with a machine. £11.00 carriage if ordered without a machine. The 5 oz polyurethane practice ball in red or yellow has a soft case to protect bats from damage. Dimpled like a golf ball for stable flight. These give the best accuracy and realistic bounce. Yellow balls for better visibility indoors or red for realism.

The 3oz orange ball is designed to give higher bounce to enable players to practice back foot shots at reduced ball speeds. Players can play hooks and pulls safe in the knowledge that the softer ball will not cause injury. Also used for junior age groups to provide bounce when the BOLA is on its shorter legs. The extra bounce is useful for re-creating different batting conditions (such as a fast pitches) so that batters can gain experience of multifarious wickets and orange balls are also increasingly popular with coaches for throw downs. Mark Davis, Cricket Professional at Millfield School, employs Orange balls for spin sessions. "The orange balls imitate a spinner bowling on a quick, hard wicket. The balls bounce higher and, on a good length, are more difficult to play. They are particularly useful for developing the sweep stroke because the extra bounce requires the player to get right on top of the ball without fear of being hurt. They are also excellent for coach safety!"

*The accuracy of your BOLA machine is affected by the condition and consistency of the balls that you use. Do not mix new balls with old ones as the best accuracy is obtained by keeping balls in batches so they are all at the same stage of useable life. If you are using balls which have lost their dimples, they should be replaced. Why not treat your club to some new BOLA practice balls!!!*

## BOLA Fielding Trainer with Gimballed Turntable

**£2012.00**

*Mains powerpack (same as cricket model) extra £256.00 or operates from 12v battery*

The BOLA Hockey Ball Machine is mounted on a gimballed swivelling turntable for instant adjustment of direction and elevation. Designed for Hockey goalkeeper training the turntable is excellent for a wide range of Cricket fielding and catching exercises. Available with extended legs.

Fielding Turntables are sold as a unit with a BOLA Hockey Machine. This is because the dimpled plastic balls (used by the Cricket Bowling Machines) are not particularly well suited to catching practices – they are very hard on the hands - and fielding drills are more effective with cricket balls. The Hockey Machine has rubber based ball throwing wheels which are more efficient when working with leather cricket balls.

## BOLA Hockey Machine

**£1710.00**

*Mains powerpack (same as cricket model) extra £256.00 or operates from 12v battery*

A floor mounted version of the cricket machine with enclosed wheels. Delivering a hockey ball at speeds from 20 to 80 mph. Vernier length control allows fine adjustment to eliminate bounce. 12 volt battery operated with mains option available.
